8	Shuqun Secondary School
9	Westwood Secondary School

¹ ASD is a developmental disability that affects the way a pupil relates to and communicates with others. It also affects the way a pupil processes information and adapts to the environment. The basic principles of support for these children relate to modifying the environment to minimise the stressors and equipping the pupil with specific coping skills (e.g. social skills, study skills).

² Dyslexia is a learning disability where a pupil has problems with words or language. It can be reduced with appropriate support and teaching.
