

## **CURRENT P1 REGISTRATION EXERCISE FRAMEWORK**

No distinction is currently made between Singapore Citizens (SCs) and Permanent Residents (PRs). Phase 1 to 2C Supplementary applies to SC and PR. Phase 3 is for non-SC/PRs.

Phase 1: For a child who has a sibling studying in a school of choice.

Phase 2A1: For a child whose parent is a former student of the school and who has joined the alumni association as a member not later than 30 Jun 2008; or whose parent is a member of the School Advisory/Management Committee.

Phase 2A2: For a child whose parent or sibling has studied in the school of choice; or whose parent is a staff member of the school of choice.

Phase 2B: For a child whose parent has joined the school as a parent volunteer not later than 1 July 2008 and has given at least 40 hours of voluntary service to the school by 30 June 2009; or whose parent is a member endorsed by the church/clan directly connected with the school; or whose parent is endorsed as an active community leader.

Phase 2C: For a child who is ineligible for or unsuccessful in earlier phases.

Phase 2C Supplementary: For a child who is unsuccessful in gaining a place in a school of choice at Phase 2C.

Phase 3: For a child who is not an SC or PR.

### **Notes**

- Should the number of applications exceed the number of vacancies in any phase, places will be balloted according to the following order of priority:
  - a. Children living within 1 kilometre of the school of choice.
  - b. Children living between 1-2 kilometres of the school of choice.
  - c. Children living outside 2 kilometres of the school of choice.
- At the end of Phase 2A2, 50% of the remaining places will be allocated for Phase 2B and the other 50% for Phase 2C registrants in a school. In the event that less than 50% of the allocated vacancies are taken up at Phase 2B, the remaining vacancies will be carried forward to Phase 2C.
- Children who are SCs or PRs and who have not registered at any of the earlier phases are also eligible to register at Phase 3. Registration in this phase is on a first-come-first-served basis.
