

SPERS and SPE Format

Eligibility Phase – Applicable to SPERS-Sec, SPE & SPERS-JC/MI

1. SPERS-Sec and SPE: Under the Eligibility Phase, applicants will sit for the English and Mathematics tests to determine the schools they would be eligible for. Besides assessing literacy and numeracy, the tests will also include non-content-based general ability items that assess reasoning and thinking skills. This will more holistically assess RS who have attended overseas schools with curricula different from Singapore's.
2. Following the conduct of the tests, applicants will each be provided with a list of schools that they are eligible to apply for, based on their performance in the tests. This will ensure that RS are of similar abilities as the students in the schools that they are applying to. They will proceed on to the School Option Phase.
3. SPERS-JC/MI: Under the Eligibility Phase, applicants will sit for the English, Mathematics and General Ability tests to determine the schools they would be eligible to apply for.
4. As the number of RS seeking admission to JC/MI is usually small, there is no need for MOE to conduct a centralised posting exercise for this group. Hence, there is no School Option Phase or School Posting Phase under SPERS-JC/MI. After the Eligibility Phase, successful applicants will each receive a list of JC/MI they can approach and for which they are eligible to apply to for admission.

School Option Phase – Applicable to SPERS-Sec and SPE Only

5. During the school option phase, applicants will be required to submit their school choices online. Applicants can submit a maximum of six choices based on the list of eligible schools given to them.

School Posting Phase – Applicable to SPERS-Sec and SPE Only

6. Secondary schools will admit a small number of RS, over and above their planned capacity, at the School Posting Phase. This recognises that overseas Singaporean children may have similar abilities as the local cohort in these schools, even though they have been away and were thus unable to seek admission into these schools together with other Singaporean children who had taken the PSLE. This will not reduce the chances for students in Singapore to get into the schools of their choice, as there will be no reduction in the number of school places available to them.

7. The School Posting Phase will take into account the performance of the RS at the SPERS-Sec and SPE tests, school choices, and the places available in these schools. In the event that an applicant is not successfully posted to any of the chosen schools, MOE will assign the applicant a place in a secondary school with vacancies near the applicant's home.

8. After receiving their postings, the RS should complete the admission formalities at their posted schools. If they choose not to accept the posting, they may still approach another school directly to apply for admission. The child will be admitted if the school approached is on the child's list of eligible schools and if there is a vacancy in the course that the child is eligible for. The school has the discretion to assess the child, including setting school-based assessments, and deciding whether to admit the child.
