

Common Last Topics (CLT) to be removed in PSLE 2021

Subject	Topic
Standard Mathematics	Primary 6 content under Speed, Volume, Pie Charts, Solid Figures and Nets
Foundation Mathematics	Primary 6 content under Volume, Geometry, Pie Charts
Standard and Foundation Science	Interactions within the Environment

**For skill-based subjects such as English Language and Mother Tongue Language, it will not be meaningful and practical to identify CLT. In such instances, SEAB will take the disruption to curriculum time into consideration during marking and grading to ensure that all students are fairly assessed.*

***Schools will cover the CLT removed as non-examinable learning during the post-PSLE period.*
