

**CENTRE FOR TEACHING AND LEARNING EXCELLENCE AT NEW TOWN
PRIMARY SCHOOL (CTE@NTPS)**

The CTE@NTPS will enrich the professional development (PD) landscape for teachers by offering a range of PD programmes, including innovative classroom pedagogies informed by theory and research, to enhance student outcomes, through:

- i) research-based curricular innovations, in particular, innovations in pedagogical practices by teachers in the school;
- ii) authentic and applied learning opportunities through masterclasses and demonstration classes set in the classrooms, led and/or co-led by MTTs from AST;
- iii) NIE-NTPS microteaching collaboration - a training method where pre-service teachers teach a small unit of content to a small group of NTPS students in a short period of time in a classroom setting; and
- iv) seminars and bite-sized webinars to extend the reach of PD by leveraging technology for teaching and learning.

Beyond the teaching strategies of academic subjects, teacher participants will also be able to learn strategies for developing students' socio-emotional competencies, character, and values.
