- Campus design creates an engaging and interactive learning environment, centred around four themes:
 - o School in a garden (e.g., multi-level community green deck),
 - o School as a living lab (e.g., Science, Technology, Engineering, Mathematics workshop),
 - o School as a second home, and
 - o School as a connected community (e.g., community farming).
- These spaces are designed along a main axis that includes wide corridors which also serve as spaces for student and teacher interactions.
- Facilities include two 12-storey teaching blocks on 4-hectare plot, with a Heritage Display Room along the main spine and a heritage wall and artworks to celebrate the college's rich legacy and accomplishments.

Temasek JC
22 Bedok
South Road

Artist impressions of façade of Temasek JC's rejuvenated campus.

- Campus design anchored upon three core elements: People (school uniform), Architecture (distinctive brickwork), and Heritage (iconic 'mushroom-shaped' structure and heritage trail). The design fosters interaction among the schools' communities, promoting collaboration and holistic development.
- Facilities include one 9-storey and one 12-storey teaching blocks on the 4.5-hectare plot, with the main buildings fronting the track and field, and overlooking the spectator stand, mirroring the design of the original campus.

- Campus is designed to create a conducive environment to support holistic learning with ample and open green spaces, and pays tribute to the college's rich history and its existing 4-storey blocks on the 6-hectare plot.
- A new Learning Spine connecting the entrance concourse, canteen, field and parade square will allow for informal collaborative learning and group activities. There will also be a Heritage wall at the main vehicle drop-off foyer to showcase the college's history.
