

THE VIRTUAL STAGE

Students can participate in the following performance-related projects:

a) SYF Pieces Reimagined

- Student instrumentalists and singers are invited to perform and record SYF 2020 Arts Presentation set pieces (i.e. *The Melting Pot*, *Kreta Ayer*, *First Light*) individually or in a group. Students will be provided with the scores and recording tutorials. Collaborations between students across schools via online platforms are welcome.

b) SYFBeatsTheBug!

- Students are invited to submit video recordings of themselves performing the given rhythms using either household items or with their instruments. This will culminate in a final video showcasing a virtual percussion ensemble.

c) The Young Playwright Presents...

- Working either individually or in groups of up to four, students will receive guidance from an established drama practitioner on creating entertaining and well-crafted monologues. They will then produce and record their own performance of an original monologue piece. Collaborations between students across schools via online platforms are welcome.

d) Virtual Emcees

- Shortlisted students who submitted entries during the open call earlier this year will have opportunities to be hosts on SYFgoesOnline! platforms in unique ways.
