

Signature Programmes

Programme	Date	Brief description
AI Forum	22 July 2026	Themed 'Navigating the Age of AI: Scaling AI Education Initiatives Safely and Responsibly', the forum provides a platform to facilitate meaningful discussions on AI in Education amongst ASEAN Plus 3 states and invited ASEAN Dialogue Partners.
Regional Initiative on Values Education in ASEAN	November 2026	The Singapore Centre for Character and Citizenship Education will lead a regional research network to advance shared approaches to values education across ASEAN Member States. As the first systematic study of values education in ASEAN, the multi-year initiative will cover research and development of think papers, policy dialogues, and professional engagement.
ASEAN Plus Three STEM Camp for Youth	6 to 10 May 2027	The five-day regional STEM immersion camp, involving youth from ASEAN Plus Three states and other international schools, aims to showcase Singapore's thought leadership in STEM Education, foster student friendships across the region, and encourage technical collaboration in applying STEM-centric solutions to real world contexts.
NUS Summer Programme for ASEAN University Students	July 2027	In partnership with MOE, the Ministry of Trade and Industry, and National Youth Council, the National University of Singapore (NUS) is developing a summer programme that will allow ASEAN university students to gain exposure to Industry 5.0 concepts such as sustainability, resilience and human-centricity alongside their Singaporean counterparts. Participants will engage in experiential learning through business case studies as well as industry visits.
ASEAN Student Adventure Camp	November 2027	The five-day outdoor camp for youth from ASEAN member states will showcase Singapore's emphasis on holistic development and develop participants' resilience, teamwork and adaptability.
